## Alexander, Scafidi Plan Motel, Pool

A. E. Alexander and August Scafidi this week announced plans to collaborate on construction of a 30-unit motel and swimming pool adjacent to Scafidi's Wheel

Im Cafe on U. S. 90.

News of the project followed termination of Alexander's earlier announced plans to erect a similar project at U. S. 90 and Beach Boulevard.

Work on the motel, which Alexander will build, is scheduled to begin next week, reported A. G. Dantagan, who handled sale of the property from Scafidi to Alexander.

Scafidi, who according to earlier reports had planned to build his own motel on the property, will build an indoor pool in accordance with AAU standards, in order that athletic competition may be held there. It will be open to motel guests and paying public.

The restaurant, owned by Scafidi will be enlarged and a dining room added to accommodate motel guests, he said. Construction of his part of the development will begin in the fall, Scafidi added.

The pool is being designed to allow the eventual addition of a recreational center with skating rink and bowling alleys, he noted. Tennis courts outside also are projected in the future.

Estimated opening of the pool and motel is next spring.

Alexander apparently halted attempts to build on the Beach-Highway property because of residential protest which could have involved time consuming legal action against building the motel in a residential area.

**Name Model Home**

The Gulf Coast's first McCallion Home, erected by C. C. McDonald Jr. is Briarwood, has been selected as one of four model homes in the nation by Georgia Pacific Lumber Co.

Another potential Hancock County industrial site was discussed by Hancock County Board of Supervisors Monday when District 3 Supervisor Johnson Shaw showed members a penciled floor space drawing of vacant Sellers School, copies of which he planned to show to two garment company managers.

Shaw said the companies had shown interest in the five-building school but had not committed themselves beyond asking to see drawings. The drawings, prepared by county engineer C. L. Mobley, show a main building 81 feet by 40 feet, 10 inches with four supplementary buildings.

Also on the property, off Route 53 between Lyman and Poplarville, is a gymnasium 115.9 x 102.6 feet; a home economics building 54.2 x 31.8 feet; a manual training building 31.9 x 54.2 feet and a lunchroom measuring 20.3 x 54.4.

City-county roadwork co-operation was approved when District 5 Supervisor R. G. Hubbard Jr. was unanimously authorized by the board to hard surface all of Washington Street, instead of the larger, county-owned portion of the road alone. He said the work would be done after completion of the 6.5 mile state aid road now under construction in his district.

The city, in turn, will hard surface all of Hancock Avenue, a small portion of which is county owned, Hubbard explained. The city already had approved the work-swap, he said, since the particular type of work cannot be done in small units, as each governmental body would have to do if each improved the smaller sections of the road which they own.

Attorney Sam L. Favre Jr. said the proposition was legal as long as an equal swap of work was recorded.

The board agreed to hire an additional road machine operator after District 4 Supervisor Jack Lott asked Hubbard for the loan of county road machine operator Charles Thigpen. Thigpen is now supervising beginning construction of the state aid road in Beat 5.

## Hospital's Board Holds Secret Meet

The Hancock County Hospital Board spent the bulk of its June meeting Tuesday night in executive session. According to Attorney Sam L. Favre Jr., the secret meeting dealt with "some policy matters."

The board closed its doors on the proclamation of chairman K. W. Pepperdine, about 8:15 p.m., and remained closed with the attorney until 9:30 p.m.

An Echo reporter, arriving shortly after 8 p.m., overheard conversation among the board about a check bouncing as he entered the Courthouse. As he entered the meeting room, the board fell silent and then briefly discussed salary payments with administrator Edgar Little.

Favre advised Little that once a salary has been set up, the board doesn't have to approve it each time, while overtime should be approved. It was agreed that vacation time salary should not be shown separately but should be on the records as part of a regular salary.

Norton Haas, board secretary, moved to adjourn the meeting but withdrew that motion when Pepperdine announced the secret meeting.

Favre, who opened the door once during the closed session, said the board was "doing a little policy making." He and Pepperdine reiterated that position when members left the room later, declaring that the regular meeting, scheduled to begin at 7:00 p.m., had been open to the public.

The chain docket 1-47 for May showed a total of \$2,592.15 in expenditures.

## Sellers School Eyed For Garment Factory

Lott said he would need Thigpen about a month, Hubbard noted that Thigpen is paid \$300 monthly by the county, with \$60 from each district. Hubbard had been paying his share four years, but he had not once used Thigpen on one of his roads, and felt it is his turn to employ Thigpen's services.

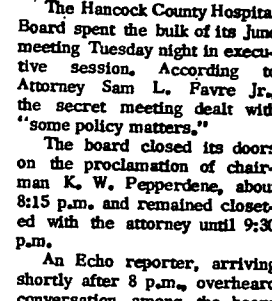

Hubbard explained he would have to pay another \$300 to hire another man for a month as work had to be kept going on the road since the district had contracted it. Mobley and Favre suggested that another man be hired by Lott, and transferred to Hubbard's district while Thigpen was being used on Lott's project.

Possible reimbursement to Mrs. Maude Wheat of Flat Top Community for damage to one of her pine trees by road workers was reported by Mrs. Samantha

## 8 Escape from Sinking Boat

Buffeting winds and rain caused a near tragedy Monday morning when two families escaped onto the Bay St. Louis railroad bridge from a wrecked cabin cruiser.

The 34-foot homemade boat, skippered by Harry Moore of Jefferson Parish, struck the bridge between 11 and 11:30 a.m. and was dashed to pieces against it less than 25 minutes after the four adults and four small children climbed to safety on the bridge.

Aboard besides the skipper were his wife, Clemie, and three children, Cheryl, 5; Alan, 7, and Jayson, 2, and the skipper's uncle, James Moore, with his wife, Lucille and daughter, Denise, 8, all of Metairie.

The skipper said the motor stopped when he sounded the siren at the bridge approach. The boat, which had left Ponchartrain Lake Sunday morning and been delayed Sunday night by bad weather, was only a few miles from its Jordan River destination where the families were to be met by the owner, W. J. Moore, Harry Moore's father.

Mr. and Mrs. W. J. Moore were planning to live on the boat until they built a house on recently purchased Jordan River estate property.

When attempts to start the motor of the drifting boat failed the skipper and his uncle tried to secure it with an anchor which would not hold. When the boat

## City School Budget Scene Termed Good

"I think we're in good shape," said city school Superintendent J. D. McCullough of the financial picture for next year in a June 4 meeting of Bay St. Louis Municipal Separate School board of trustees.

He said \$11,870.70 would remain in the treasury after payment of current bills. About \$5,000 operational expenses were estimated for June not counting on \$8,000 bank loan to be repaid. McCullough noted that about \$10,000 of the estimated allotment from the city had not yet been received for the school year ending June 30.

This amount could be even greater he said, since the city was operating on an old assessment while collecting taxes on the new one. However, "we're not counting on it," he said of a greater allotment.

Hiring of more class A teachers with five years experience would hike next year's tentative state teacher unit allotment, he added and the higher total of teachers employed would raise the \$150 per teacher state allotment for his salary to \$7,050, leaving only \$450 to come from city funds.

In a more detailed financial review, McCullough showed that a \$743.58 surplus would be in the transportation fund at the end of the year, with the first of three annual \$2,100 bonds on new buses to be paid next year.

P and L Fence Company, a 14-year-old New Orleans firm, will open a branch at Old Spanish Trail and Main Street Monday with Oscar E. Lofton of Ellisville serving as manager. The business will handle aluminum awnings, carports, various types of fencing and other building equipment.

A formal opening in two weeks is planned at Toomey's Shell Service Station on Coleman Avenue, Waveland.

The new business, already in operation, is owned by Jack Toomey, formerly a switchman with the L and N railroad. With his wife and two children, he lives at 325 Jeff Davis Ave.

## 40-Mile Winds, 3.5 Inch Fall Listed Monday

The Bay area experienced Monday the heaviest rainfall and winds in a year, according to Mayor John Scafidi, who said Damage was slight and not nearly as extensive as we had expected.

St. Stanislaus College weather bureau reported that in Monday's squall, the average wind velocity was 27 m.p.h. with gusts up to 40 miles. Three and a half inches of rain fell from 7 a.m. Monday to 7 a.m. Tuesday. The reporter said that tides were two feet above normal for the squall period and that this is not unusual for a storm of this type.

Waveland Mayor Garfield Ladner said that the flooding was about the same as for any heavy rain accompanied by unusually high tides.

Mayor Scafidi said that the most extensive damage reported was 100 ft. of road shoulder was washed out on Ramoneda and one culvert caved in at Sycamore and Hancock.

According to the Mayor, these were the only places of extensive damage and repairs on them began Tuesday. There was slight damage in other parts of town but no more than normal for a heavy rain.

Mayor Scafidi said, "We realize there are drainage problems that need attention and have for some time. We are making plans to have them corrected. The intersection at Necaise and Carroll Avenues, which flooded to such an extent that it was impassable for three hours, has a 120 ft. section of small pipe which we are planning to replace with larger pipe." The mayor explained that most of the flooding trouble was caused by storm tide water backing into the drainage outlets into the bay.

There was one near tragedy when Mike Phillips, 18-month-old son of Rep. and Mrs. Walter Phillips, fell into a small ravine when walking with his brother, Cort, 3, in the back yard of their home on Ramoneda.

The swift current was carrying the boy along under the water as Cort screamed for help. Mrs. Phillips, in the house, heard the boy's screams and ran to aid her son. She waded into the stream and pulled Mike to safety. Mike swallowed some water and was a little water-logged, but otherwise all right afterwards.

### A Matter of Policy

Now that all candidates subject to the Democratic primary on August 4th have filed, it seems appropriate to announce one advertising policy of the Echo that might affect them.

With the exception of the last issue of this paper prior to election, we are pleased to print for any candidate any non-libelous advertisement in good taste. In the issue preceding the election the Echo will print political advertisements only if the content is limited to why to vote for a particular candidate as distinguished from why someone shouldn't be elected to a particular office.

Though not a promise this paper expects to similarly limit its editorial comment in that issue except on events of information arising during the preceding week.

### Miss America and Atlantic City

Mississippi's Miss America, Mary Ann Mobley, is good advertising for her home state. We had the pleasure of seeing and hearing her last Friday at the annual convention of the Mississippi Press Association, and are sure she made more than just a good impression on the others present.

Because of this, she also makes a good publicity agent for Atlantic City's Chamber of Commerce, which in essence describes the organization that sponsors the Miss America contest. Although technically a non-profit organization that annually gives much moolah towards college scholarships for girls, in fact it is dedicated to promoting the name of Atlantic City, N. J., to the financial profit of that resort community.

While each year a State as well as Atlantic City is promoted because of the origin of the winner, the Echo questions the wisdom of newspapers outside of Atlantic City and the home state of a winner in publicizing Miss America. This bothers us notwithstanding that we think Miss Mobley grossly underpaid as a publicity agent.

### Executive Sessions Are Bad

The Hancock County Hospital Board is composed of good public spirited citizens who give their time generously. Its chairman, Mr. K. W. Pepperdine, and its attorney, Mr. Sam L. Favre, Jr. we know and consider particularly reliable and hope are friends.

From such information as the Echo has, it is entirely possible that had its publisher, without newspaper background, been a member of the hospital board he might have voted for an executive session Tuesday night.

As a matter of principle, and in spite of the above, the Echo regrets the secret meeting held on Tuesday. If good boards composed of top citizens hold secret meetings, cannot bad boards composed of unreliable persons do the same?

As a newspaper that feels a responsibility to the public generally, the Echo opposes all executive sessions. The practice is bad.

Some mighty attractive postcards picturing the Bay area made their appearance in several places a couple of weeks ago.

### GROUND MOLE PREVENTION

Use of insecticides to control white grubs and other small animals which furnish food for ground moles is gaining favor in Mississippi.

Several long lasting soil insecticides are being applied to kill these small animals and thus deprive the ground mole of its favorite food, according to extension entomologist specialists of Mississippi State University.

The entomologists say that the diet of the ground mole is made up almost entirely of animal matter found in the soil. Ground moles dig constantly for their daily food and thereby expose roots, lift young plants, and raise unsightly ridges in lawns or about plants. Tunnels made by the mole are frequently taken over by mice which may do considerable damage that the ground mole is frequently blamed for. Mice leave tracks where they gnaw, but the mole's damage is caused when tender plants or roots are shredded by the mole's feet.

White grubs are one of the favorite foods of the mole and may be controlled by any of the

following soil insecticides: Aldrin, heptachlor, dieldrin, or chlordane, the specialists state. They may be applied as dusts, sprays or granules or in fertilizer. Recommended treatments are effective for from 3 to 5 years.

After treatment don't expect an immediate reduction in the presence of ground moles. Treat an area larger than the lawn or other area to be protected. Harpoon traps are effective in controlling moles when properly set. But getting rid of moles by trapping still does not get rid of grub damage which may be as great as that from moles, they add.

They also point out that the white grubs develop into May beetles which are destroying the foliage of shade trees in many areas of the state.

### MANAGING PASTURES

Want to make your pastures really good this summer? If you do, here are a few things to do. Keep the weeds off. Do it by either clipping or spraying. If you are going to spray, use one pound 2,4-D for most weeds.

A MAN'S CASTLE

We never thought that we would find ourselves in agreement with the liberal segment of the Supreme Court, Justices Warren, Douglas, Black, and Brennan, on any question decided by that body, but we were wrong. These four dissented in the recent case of Frank vs. Maryland, in which the court held that, if a health inspector in the city of Baltimore, acting under the provisions of a Baltimore ordinance, requested entry into a private home for the purpose of making a rat-eradication inspection, it was the duty of the owner to admit the inspector and failure of the homeowner to do so would subject him to being fined under the ordinance. The majority, Justices Frankfurter, Clark, Stewart, Harlan and Whitaker, held that, in spite of the 4th Amendment to the Constitution, the health inspector did not need a search warrant. The minority held that a warrant was required.

The 4th Amendment of the United States Constitution reads as follows: "The right of the people to be secure in their persons, houses, papers and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized."

The Elder Pitt in England gave expression some years before these words were written by the founding fathers of our country to the meaning of the right of privacy of the home, as follows: "The poorest man may in his cottage bid defiance to all the force of the Crown."

But now the Supreme Court says that freedom-loving Ameri-

cans who have assumed that the privacy of the home was inviolate were laboring under a delusion. The majority of the Court held that the general welfare and the police powers of the state overbalance this fundamental right of the individual, it said:

"It is the very nature of a free society to advance in its standards of what is deemed reasonable and right. Representing as it does a living principle, due process is not confined within a permanent catalogue of what may, at a given time, be deemed the limits or the essentials of fundamental rights."

The majority did say that the inspector did not have the power to force entry nor to break past the unwilling occupant, but held that the homeowner could be fined for resisting the entry of the inspector.

The dissenters, on the other hand, pointed out:

"The official's measure of his own need often does not square with the Bill of Rights. History shows that all officers tend to be officious; and health inspectors, making out a case for criminal prosecution of the citizen, are no exception."

The applicability of these statements in this case is proven by the testimony of the inspector. A whole day elapsed between the first inspection and the arrest, and the only reasons given for not getting a warrant were the inspector's convenience.

The dissenting Justices observed that this was indeed flimsy ground for denying this homeowner the constitutional protection afforded by a search warrant.

It now appears that a man's home is no longer his castle—not when it is in the path of the welfare state with its police powers bulldozer.

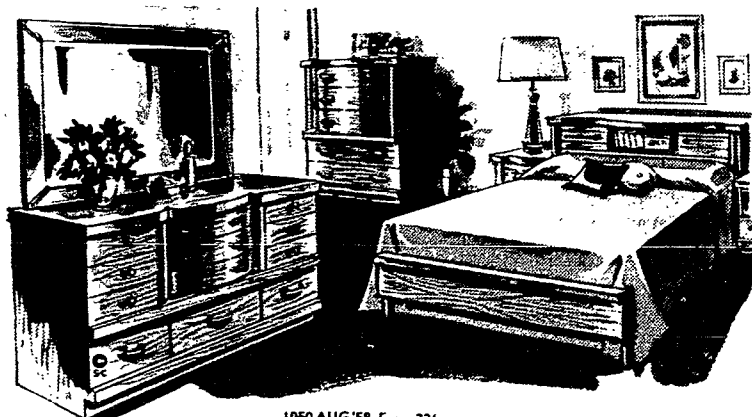

Thus another inroad on the Constitutional liberties of the people has been made.

## Scout Troop 208 Has Gala Outing

Boy Scout Troop 208's week-end camping trip at the Teddy Stechman property on Blue Meadow Road was termed the best in the troop's history by John D. Rutherford Jr., scoutmaster. Thirty-six boys, accompanied by Rutherford and his assistants, Lucien Kidd, Lavern Pahlman, Chester Favre and Stechman pitched their tents Friday night in the rain and settled down, as much as the rain would allow, for the three-day stay.

Saturday the scouts were given instruction in knot tying, cooking, and fire building. They held contests in string burning, foot races and other traditional scouting games.

## Travirca Named By Guard Unit

James Travirca was appointed truck master sergeant after recent reorganization of the local National Guard unit, changed from C Company 890 Engineering unit to 134th transportation unit, reports Lt. Irvin Kingston, commanding officer.

Henry Prevou replaced Steve Prime as first sergeant.

About 80 members of the unit will go with other units in the 138th battalion from Biloxi, Pascagoula, Ocean Springs and Poplarville to Camp Shelby, June 28 to July 12 for summer training.

## Building Permits

Building permits issued in the office of City Commissioner of Public Utilities Cyril Glover during the week ending June 9 were as follows:

Mrs. S. E. Colson, repairs on Sycamore Street, \$500.  
John J. McDonald, Alterations, 1st Ward, \$2,000.  
Dr. A. P. Smith, erect awnings on home, 802 So. Beach, \$960.  
Francis T. Hobbs, erect carport on Main Street, \$150.  
Bruce Bourgeois, erect residence on Felicite Street, \$5,000.

onia, stopped on the road without pulling off when his 1951 Pontiac, the ruined car, ran out of gas. Charles O. Cummins of Mississippi City, traveling behind him in a 1950 Packard, pulled off the road to the right onto a shoulder ahead of Russell, who by this time was out of the car.

Behind the two cars, also traveling east on 90, in the heavy traffic was the truck, driven by Ralph L. Wilson, 26, of Birmingham, Ala., who struck the stopped car, the truck cab climbing onto the empty car with the impact.

The truck then swerved off the road where it sideswiped Cummins' car, still occupied by him and his family. Damage to the Cummins car was slight, Kenny said.

The Russell car hurtled 100 yards off the road down into a ditch. Russell and Wilson paid \$10 fines after hearing that night before JP Nelius Rhodes on charges of illegal stopping and failing to yield to preceding vehicle, respectively.

One hundred parents and guests were at the camp for Parents' Night, Saturday, and witnessed the initiation of four Tenderfoots. They were: Andrew Luke, son of Mr. and Mrs. Paul Luke; Bruce Cox, son of Mr. and Mrs. Lawrence Cox; Robert Waite Jr., son of Mr. and Mrs. Robert Waite; and Billy Stechman, son of Mr. and Mrs. Teddy Stechman. Hot coffee, cold drinks and hot chocolate were served to the parents. Scoutmaster Rutherford said that many of the parents sampled the Scout's famous stew of which they had made almost 17 gallons.

After the parents left camp many of the scouts went frog "gigging", and returned with 32 frogs which they cooked and ate Sunday morning for breakfast.

The best meal of the trip was Sunday dinner which the scouts cooked with advice from their leaders. On the menu was a half barbecued chicken for each scout, potato salad, baked beans, french bread and cold drinks. Some of the scouts used their ingenuity to get a whole chicken for dinner.

The troop, sponsored by the American Legion, is now planning its annual trip to Camp Salmon, La., July 19-25. Last weekend's outing was the first of a series of three scheduled this summer.

## 4-Her's Attend Leadership Meet

Four local 4-H club members were accompanied by County Agent Howard F. Simmons to the annual 4-H Junior Leadership Conference at Mississippi State University, sponsored by United Gas Corporation in cooperation with the Mississippi Agricultural Extension Service June 2 through Friday.

The youngsters, chosen for the trip because of leadership ability shown in individual clubs and the county Junior 4-H Council, were Carl J. Moran and Donald A. Koenen, Kiln club; Gloria Kemmel, Bay High club; and Judith Lea Shaw, Sellers club.

## Earl Ramond ANNOUNCES FOR Supervisor

Earl Ramond

Because of a sincere desire to serve you people of Beat 5 as your supervisor for the next four years, I wish to announce my candidacy for that office in the forthcoming primary.

I am forty-six years old and have lived in Bay St. Louis all but three of these years. I completed my high school education at Bay High, attended Pearl River Junior College, and took correspondence work from La Salle University. Having a staunch faith in the future of our county, I severed my employment with the Mississippi Power Company following nine years of service with them, and I went into business for myself some fifteen years ago here in Bay St. Louis. This venture has proved successful.

Because of the longevity of my residence and successful business contacts with the people of this county, I believe that I am thoroughly acquainted with its people and I have a deep-seated interest in its unique problems. I feel confident that I can give you an efficient, economical, and honest administration in the office of supervisor, performing its duties fairly and impartially.

No one owes any candidate a vote, but as a good citizen, it is your responsibility to cast your vote for the candidate who, in your opinion, is best qualified for the position. Because I sincerely believe that I am the best qualified for this post, I would be deeply appreciative of your consideration and I humbly solicit your vote, influence, and support. You are aware that the man elected to this office guides the county to its destiny. ELECT ME and LET'S ALL WORK together for the advancement of Hancock County. I await your reply.

## County Board Acts on Bills

Bills were approved in a brief Saturday morning session of Hancock County School Board of trustees, recessed until June 20, said E. B. Breland, superintendent.

The trustees approved, on the motion of board members S. P. Powell, seconded by Charles Murphy, travel in May for vocational teacher D. J. Martin and North Central School Superintendent R. E. Webb.

Members approved refunding of erroneously collected tax funds to the city. The money had been collected by the office of sheriff and tax collector in an area recently brought within city limits and placed by that office in the county school allotment.

## JOHN D. SMITH

Announces for RE-ELECTION AS HIGHWAY COMMISSIONER

John D. Smith

## TO THE PEOPLE OF HANCOCK COUNTY AND THE SOUTHERN DISTRICT

Pledging my ability, and the experience of many years in public life to the task of completing our state highway system in South Mississippi, I hereby announce my candidacy for re-election to the State Highway Commission as Commissioner for the Southern District.

In making my announcement, I am fully aware of the big job ahead of us as Mississippi expands, and as we strive to keep abreast of this dramatic industrial and agricultural progress with our state highway system.

When I became your Highway Commissioner in January, 1948, the state highway system in South Mississippi was little more than half complete. Since then, we have developed a sustained program of financing; we have matched every available dollar of Federal aid, and now ninety-one per cent (91%) of our maintained system is hard surfaced.

If re-elected your Highway Commissioner, I pledge my continued efforts to see that the remainder of this system is brought up to the high standards required of present-day highways.

It will be my purpose to see that our highway progress continues to keep pace with the general economic growth of our state; to see that every highway dollar is spent wisely in providing the facilities to which our people are entitled.

In this regard, I pledge my continued efforts and abilities to the end that Mississippi highways be built to the same high standards as those in surrounding states.

I shall always oppose any lowering of highway standards which would result in the loss of tourist trade, hamper industrial development, or weaken our position competitively with other states. It is my belief that Mississippians deserve highways as good as those of any other state, and to this end I pledge the utmost of my abilities.

We are now in a great era of highway building. Millions of dollars in Federal and State funds will be spent on our highway system within the next few years.

Since 1948 I have devoted my life to this program. I have proven my ability to do the job honestly and efficiently, without fear or favor. I have gained experience which will be invaluable in carrying our present great highway program through to a successful conclusion.

Before being elected to the State Highway Commission, I held other public offices in South Mississippi including Sheriff and Chancery Clerk of Simpson County.

This is no time to gamble with an untried man. This is no time to substitute for the lessons of experience, and the proven honesty, integrity and ability of one whose life has been devoted to public service.

Our very way of life depends upon the progress we make in our highway system, and the wisdom we apply in building these highways not only for today's needs, but for the needs of future generations.

Mississippi is now making enviable progress on the new Interstate System of National Defense highways. Set up by the national Congress in 1956, this network of superhighways includes three highways in South Mississippi - 51, 11, and 90.

If re-elected, I shall continue to do all possible to see that Mississippi's Interstate highways are built to the same high standards as those in our neighboring states and that these new traffic facilities result in the greatest possible benefit to our citizens.

Hancock County got its two main roads, #90 and #43, constructed and paved early in the highway program. After I became your Highway Commissioner, 5.6 miles were relocated and paved on #90 West of Bay St. Louis. Also at the time I came in, you had 38.3 miles of hard surfaced highway. Today you have 63.6 miles. During our administration, we have built and paved highways #53 and part of #603 and #604.

Our program at this time in Hancock County is to complete highway #603 from Kiln to Highway #90. We feel that this is the most needed project at this time. We have been planning, surveying and working on the plans and specifications for this road and the bridges. Since the Mobile District Federal Engineers are requiring us to have 16 feet vertical and 30 feet horizontal clearances on the bridges across Jordan River and Bayou La Croix, it is going to cost much more than we expected. It is estimated to cost between seven hundred fifty thousand and one million dollars. There are no road building materials on this road, so they will have to be hauled in from other places.

There are a few people - including a newspaper - who are demanding that we four lane #90 to the Louisiana State line immediately. Since we plan to construct Interstate Highway #10 from North of Pearlinton to Bay St. Louis within the next few years, with the limited funds that are available for other type roads, we feel that we should use these funds to build the Kiln Road and to build an access road from Bay St. Louis into the interchange on the Interstate road when it is constructed.

It is only in Hancock County that the Interstate road can be built in the early part of our program because of the two toll bridges that are in use on #90. State law prohibits the diversion of the traffic from the bridges until they are paid for.

I have enjoyed working with and for the fine people of Hancock County. I am grateful to my friends for your loyalty and trust. I hope that you will get the true facts concerning your road problems and not allow a few to mislead or confuse you.

During my service as Highway Commissioner I have made every effort to serve every area of our District. I seek re-election confident that my record merits an overwhelming vote of confidence by the people. I ask that you consider my education, training, experience, integrity, character, and reputation before you cast your vote. I have served you honorably and it is my ambition to continue this service for the next four years.

I will sincerely appreciate your vote and influence.

Faithfully yours,  
John D. Smith

MRS. SCOTT T. ASSENHEIMER

## Assenheimer-Taylor Vows Heard at Slidell Church

Miss Mary Elizabeth Taylor, daughter of Mr. and Mrs. Charles Joseph Taylor of Slidell, became the bride of Scott Thurm Assenheimer, son of Mrs. Scott Assenheimer of New Orleans and Bay St. Louis and the late Mr. Assenheimer, in a nuptial mass celebrated May 30 at Our Lady of Lourdes Church in Slidell.

The bride, given in marriage by her father, wore a gown of white tulle with bands of imported lace around the skirt which dipped into a slight train. The tight fitting bodice was of the same lace and the scalloped neckline was trimmed with iridescent sequins, as were the tiny sleeves. Her veil of silk illusion, edged with lace, fell from a bandeau of the sequins. She wore a single strand of pearls, gift of the groom, and carried a bouquet centered with an orchid and showered with stock.

The maid of honor, Miss Dale Dugas of Slidell, and the brides-

1959's "best buy" is even better now during your Ford Dealer's Dividend Days! You can have the car with the biggest dividends on a better-than-ever dividend deal. That's because Ford sales are sizzling along out front!

Ford's Thunderbird-inspired styling was awarded the Gold Medal at Brussels for its elegant lines. Ford is the car that's built for people...with wider doors for easier coming and going...with seats that are deep and soft all the way across so that even the man in the middle has full comfort. And, of course, Ford is the car that's famous for savings...big savings on regular gas and full-filtered oil...double-life mufflers...no-wax finish...plus other economy features.

No matter what kind of a car you're driving, bring it in. Once you see the 59 Ford (and find out the wonderful buy it really is) you'll be Ford's biggest booster!

Stop in at your Ford Dealer's soon and sample his stock. Get the trade-in dividend of the year. Better hurry!

## GUILTY

(of wanting your vote)

This woman is armed and dangerous - Armed with all the love and compassion that only a woman can feel for the young. Dangerous to opposition because Beas is honest and sincere in wanting this post for the good she can do.

As one of the J. P.'s in Beat Five (you must vote for two) Beas feels that, since she is a woman and primarily interested in the problems of the young people of Hancock County, especially those of the young ladies, she is better qualified to handle these problems than any man running for this position. Beas has long befriended the young people and holds their confidence. As a result of this she feels that they will discuss their problems more openly with her and she will be in a position to give them the aid and guidance that they can't get elsewhere.

People of the Bay St. Louis, Waveland, Clermont Harbor, and Lake Shore are eligible to vote for Beas.

Vote for BEA GEORGI FOR JUSTICE OF THE PEACE, Beat 5, on August 24.

Who has added  
new appliances in  
your neighborhood?

Have you seen a crew of Mississippi Power Company workmen in your neighborhood recently? Chances are that some of your neighbors have added major electric appliances to their homes. They're getting ready to live better electrically. And it's true in most neighborhoods - folks are just beginning to enjoy electric living at its best.

Perhaps the new appliances are automatic electric ranges. And if they are, those neighbors already know the advantages of modern cooking - the electric way. Electricity cooks faster, cooler, and more efficiently. If the appliances are air-conditioning units, your neighbors are preparing for summer comfort. And if an electric washer or dryer has been added, you can bet there'll be no drudgery on washday in their homes.

The workmen you saw were adding new facilities to our equipment - making sure that plenty of electricity will be available to operate those new appliances. It is Mississippi Power Company's job to see that you have all the electricity you want - whenever you want it.

## Penguin Week

The eighth annual Junior Sailing Championship Regatta, a large field of junior skippers from Mississippi, Alabama and Louisiana, sailed this Saturday at Bay-Waveland Yacht Club.

## Rebel Ride

Thirty Bay St. Louis riders are grooming horsemanship riding skills for the Rebel Horse Show June 21, at Bay Y Arena.

Only organized riders, who have already won a trophy at a rodeo two weeks ago, are eligible to compete at the show.

The eleven classes include Shetland ponies, Arabian horses, English riding, Tennessee walking horse, barrel racing, reining, five gaited horse, and barrel racing.

A trophy will be presented to the first place winners and first through fifth place judges will be Bob Elton, all of Alabama.

Eliminations for barrel racing and stock horse riding will be held at 10 a.m. in the arena. The top riders will work the show.

Ribbon girls are Margaret Galt Higgins, Beulah Dorich, and Rebecca Caddy Fish.

The transaction was for the last 25 years, has been Joseph E. Cure, Jr., commercial fisherman.

The sale, price of disclosed, include about 500 x 600 feet of water frontage, other equipment, boat, manager and camp with other effects to devote his life to his real estate.

## Penguin Regatta Weekend Calendar

The eighth annual Junior Penguin Regatta, with a field of junior skippers from Mississippi, Alabama and Louisiana, will be held this Saturday and Sunday at Bay-Waveland Yacht Club.

## Rebel Riders Show June 21

Thirty Bay St. Louis youngsters are grooming horses and riding skills in preparation for the Rebel Riders Show June 21, at 2 p.m., at the Y Arena.

Only organized for six years, the club has already been awarded a trophy at a rodeo held two weeks ago. It also won a trophy at the Poplarville rodeo.

The eleven classes of competition include Shetland pony, pure horses, equitation (only ability of the rider), three with English equipment, Tennessee walking, stock horse, five gaited, road, bike, barrel races, and jumping.

A trophy will be presented to first place winners and ribbons to first through fifth places.

Judges will be Bob Braswell, De Conway and Mrs. Martha Allen, all of Alabama.

Eliminations for barrel racing and stock horse reining will be held at 10 a.m., June 21, at the arena. The top eight riders will work the show.

Ribbon girls are Martha Allison, Gall Higgins, Betty Ruhn, Doris, and Renee Karl.

## Fishing Camp Held to Cure

Bayou Caddy Fishing Camp, held for the last 25 years by Orrie, has been purchased by Joseph E. Cure, formerly a commercial fisherman from New Orleans.

The transaction was completed June 1 and Cure and his wife are now staying with her father, Bertel, in Clermont Harbor, where they can find a home to live their family to Hancock county. The new owner said he expects to open the restaurant at Lakeshore establishment in other week or so.

The sale, price of which was disclosed, included a building about 500 x 600 feet, a 650-gallon water frontage, skiffs and other equipment. Russell, son, manager and partner in the camp with Orrie, said he expects to devote his full time to his real estate business.

## Mahfouz Named Director

## Little League Forms Monday

Efforts are underway to organize Little League baseball for youngsters in Bay St. Louis this summer, with the appointment by City Commission Council of a director for the program.

Happy Mahfouz, head basketball coach at St. Stanislaus College who was assigned to the new post on Monday, is asking all boys aged eight through 15 years to attend an organizational practice session at 9 a.m., Monday at the Carroll Avenue diamond. His salary was fixed at \$250 a month.

Mahfouz was graduated from

## Softball Play Slated Tonight

The Bay St. Louis Softball League will make another try tonight to open its season with a doubleheader scheduled to start at 8 p.m., at the Carroll Avenue field. Knights of Columbus is to meet the Youth Center in the first game and Stiefel and Sons plays Bea George's in the second.

Tuesday's games, already delayed one week because of rain, were postponed again because of wet grounds after Monday's storm. C and S Fine Foods were to play Southern Realty and Regal Beer was scheduled against Tramp's.

League Director Happy Mahfouz said that the schedule will be played according to plan and all postponed games will be played at later dates which will be decided by the teams. Each team will play eight games, during the season, the top four playing off for the city championship.

## Mrs. David Leads For Gex Trophy

Mrs. John David held a two stroke lead at the halfway mark in the Ethel Gex medal play tournament now under way for women golfers at Pass Christian Isles Golf Club.

Mrs. David posted a net 78 for her initial round. In second place with a net 80 was Sis Dambink. Tied with 81s were Anne Liversedge, Mrs. Powell Glass Jr. and Mrs. Walter Russo.

The second and final 18 holes in the tournament are to be played Saturday or Sunday.

## Field Day Set

The Louisiana Brahman Association's annual field day will be held June 23 on the V O Ranch of R. Watkins Greene at Youngsville, south of Lafayette, according to G. L. Paret Jr., president.

## Marines Promote Turcotte

Walter Francis Turcotte Jr. of Waveland and Long Beach and a member of the United States Marine Corps Reserve, attached to the 1st Armored Amphibian Company, Gulfport, and leader of the 1st platoon, has been promoted to the rank of captain.

A graduate of St. Stanislaus High School, Perkins Junior College, and Mississippi State College, he was commissioned a second lieutenant in September, 1953, and served at marine bases at Quantico, Va., and El Toro, Calif. He has been with the Gulfport Unit since October, 1956, where he is employed as commercial representative for Southern Bell Telephone Company.

He is the son of Mr. and Mrs. Turcotte Sr. of Waveland, and is married to the former Miss Mary Clement of Hattiesburg.

## Golf Range Opens

Jake's Driving Range on U.S. 90 at Main Street is now open for the summer season, according to Jim Johnson, the new manager.
